

The background of the image is a blurred, bokeh-style photograph of city lights at night. The lights are out of focus, creating soft, glowing circles of light in shades of red, purple, and pink. These lights are reflected on a dark, rippling surface, likely water, which adds a sense of movement and depth to the scene. The overall mood is mysterious and atmospheric.

El sector de la recopilación, análisis y venta de datos personales digitales es el negocio que más ha crecido en los últimos dos años en Estados Unidos. A diferencia de lo que ocurre en Europa, EE.UU. no cuenta con una legislación tan restrictiva y permite que existan empresas que se dediquen a comerciar con los datos sin problemas. En este post de Conversia te damos más información.

## La industria de los datos personales genera miles de millones de dólares

A large, dense crowd of people, mostly men, are gathered together, many holding up their smartphones to take photos or videos. The scene is dimly lit, suggesting an indoor event like a concert or a night-time gathering. The people are dressed in casual winter clothing. The overall atmosphere is one of excitement and anticipation.

- There is no solution, are we trapped? We can't run away...
- We will die like everything around us. It is our human destruction.
- Our values, our ideologies have been used against us. We have been controlled like puppets.
- NOOOO!! Don't say that. There is a solution! There is HOPE. And HOPE can be achieved if we remain together and try to struggle and look into the future with a different attitude.
- We have made mistakes...but we will overcome them.
- But...how?
- We need to calm down, we need to be more generous, respectful, understanding, less competitive and consumerist. We also must take care of Nature...
- EXACTLY!!! We can't grab from Nature what we want, ignoring how dangerous this is for us!!

**-So, that means that we can recover our lives? If we change our attitude...**
